

MUH. YASSAR NURFAJRI DHARMAWAN

FULLSTACK DEVELOPER | MOBILE DEVELOPER | DATA ANALYST

muhyassarnurfajrid@gmail.com | 0812-4309-1182

PROFESSIONAL SUMMARY

Informatics graduate from Universitas Pembangunan Nasional "Veteran" Jawa Timur (GPA 3.81/4.00) with experience in full-stack web development, mobile application development, IT operations, and data analysis. Skilled in Laravel/PHP/MySQL, Kotlin/Jetpack Compose, and Python-based data and machine learning workflows, with strong analytical, problem-solving, collaboration, and software-testing abilities.

EDUCATION

Bachelor of Informatics - GPA 3.81/4.00 | UPN 2022 - 2026
"Veteran" Jawa Timur - Surabaya, Indonesia

PROFESSIONAL EXPERIENCE

IT Staff | DP3APPKB - Surabaya, Indonesia Apr 2025 - Jun 2026

- Supported IT operations through installation, configuration, troubleshooting, maintenance, and user technical support.
- Assisted system updates, data-security practices, and implementation of IT solutions to improve operational reliability.

Full Stack Developer (Remote) | PT. Winnicode Feb 2025 - Jul 2025
Garuda Teknologi - Bandung, Indonesia

- Developed and maintained Laravel/PHP/MySQL web applications based on user and business requirements.
- Implemented front-end/back-end features, database integration, authentication, and data-management functionality.
- Collaborated on requirements analysis, development, testing, and implementation to ensure reliable delivery.

SELECTED PROJECTS

Prognosis for Chronic Lymphocytic Leukemia | Swin Transformer, Streamlit | Jul 2026

- Developed a Swin Transformer model to classify 10,216 white blood cell images into Normal and Chronic Lymphocytic Leukemia (CLL), including preprocessing, hyperparameter tuning, and evaluation with 86.96% accuracy; deployed the model in an interactive Streamlit web application.

Employee Attendance System | Laravel, MySQL | Feb 2025 - Jul 2025

- Developed a web-based attendance application for 50+ employees with authentication, clock-in/clock-out, attendance summaries, and a MySQL database handling hundreds of records; performed testing and maintenance to support reliable operation.

WiserrApp for Swiftlet Farming | Kotlin, Jetpack Compose, Dialogflow, Firebase | Sep 2024

- Developed an Android application with 6+ key features for swiftlet farming management, integrating Dialogflow AI Chatbot and Firebase for consultations, notifications, and real-time data, plus community and educational modules with videos, articles, and quizzes.

TECHNICAL SKILLS

Full-stack Development: Laravel, PHP, JavaScript, HTML, CSS, REST API, API Integration, Postman, Git/GitHub
Mobile Development: Kotlin, Jetpack Compose, Android UI Development, UI/UX Design, Figma, Adobe XD
Data & Analytics: Python, Pandas, SQL, MySQL, Microsoft Excel, Data Cleaning, Data Validation, Data Preprocessing, Data Visualization, Statistical Analysis, Data Reporting
AI / Machine Learning: PyTorch, Machine Learning, Deep Learning, Image Classification, LIME
Core Competencies: Problem Solving, Analytical Thinking, Software Testing, System Analysis, Collaboration, Communication, Adaptability

CERTIFICATIONS & TRAINING

Junior Web Programmer - Badan Nasional Sertifikasi Profesi (BNSP) Jun 2026 - Jun 2030
English Proficiency Test - Pusat Bahasa UPN "Veteran" Jawa Timur Jun 2026 - Jun 2028
Microsoft Office for Office Staff - Skill Academy by Ruangguru Jul 2024 - Jul 2028
Mobile Development & UI/UX Design - Infinite Learning Sep 2024 - Dec 2024
Mini Bootcamp - Web Development - Edspert.id Feb 2024
